REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the indication of the allowability of claims 1-3 and 5 is the inclusion therein, in combination as currently claimed, of the limitation of "said at least one steel rod being arranged in a void between said steel tubes; said umbilical is without an outside armor layer outward of said steel tubes and said at least one steel rod". This limitation was found in claims 1-3 and 5 and is neither disclosed nor taught by the prior art of record, alone or in combination.

The primary reason for the indication of the allowability of claims 4 and 12 is the inclusion therein, in combination as currently claimed, of the limitation of "said at least one steel rod is in direct contact with said non-metallic outer sheath and wherein said umbilical is without an outside armor layer outward of said steel tubes and said at least one steel rod". This limitation was found in claims 4 and 12 and is neither disclosed nor taught by the prior art of record, alone or in combination.

The primary reason for the indication of the allowability of claims 6-8 and 10-11 is the inclusion therein, in combination as currently claimed, of the limitation of "said substantially solid steel rod being shaped and sized for absorbing tensile loading on said umbilical; and not applying an outside armor layer outward of said steel tubes and said at least one steel rod". This limitation was found in claims 6-8 and 10-11 and is neither disclosed nor taught by the prior art of record, alone or in combination.

The primary reason for the indication of the allowability of claims 9 and 13 is the inclusion therein, in combination as currently claimed, of the limitation of "placing said at
